

Matching Grant...reciprocally blest

Grateful news! An anonymous donor has given Sunland Home Foundation the opportunity to establish a \$50,000 Matching Grant.

Contributions made to Sunland by branch churches and/or individuals through January 31,2018, and designated 'matching grant,' will be matched dollar-for-dollar, up to \$50,000.

Funds received through this Matching Grant will make possible the replacement of our obsolete audio system. A new system with current technology not only gives our patients the ability to call for assistance from a Christian Science nurse but additionally provides for the active engagement of spiritual study through online resources including: the weekly Bible Lesson, articles and testimonies in our periodicals, hymns from our Church Hymnal, Christian Science lectures, and live broadcasts from The Mother Church.

As we strive to provide an environment where spiritual clarity can be achieved, the best preparation is to keep our spiritual storehouses full, available, and accessible.

Here at Sunland Home, as in all Christian Science nursing facilities worldwide, we provide a loving environment, where the patient's dependence on God is fully supported and healing is expected.

We are asking for, and welcome, your participation to realize the full benefit of this gift. How very grateful we are for this practical proof of lovingkindness.
